Cameroon (ANOR) ZIBI ZIBI, Francis Noel Mr	Comment to Q.7: ZIBI ZIBI Francis Noël	2019-04-01
Canada (SCC) Redekop, Quinn Mr	Comment to Q.1: This NWIP is suggesting it is fine to split up ISO 37120 and ISO 37122 by selecting only some indicators from each-- "by cross-referring to ISO 37120 and ISO 37122 for detail on the specific indicators to be used within this process." -- which in effect weakens these 2 existing standards when the intention is for cities to adopt these standards together in order to help cities develop a full and comprehensive data platform. By suggesting only a selection of indicators be made from 37120 and 37122, this weakens the whole premise of building them in TC268 WG2 Please make sure to include the correct reference to ISO 37120 and ISO 37122 when developing this standard.	2019-03-26
