Regarding "Activities" highlighted across the text and summarized at the end of the document in the table, France would like to submit the following comments :		

- "Activity2": "It is recognised that for the moment, the bias is too much on European and Western influence..." does this objective and especially this statement has its place in this document? If yes, please reformulate for the sentence to saty positive. If not, please delete the sentence.

- "Activity 4": Putting forward an oragnisation more than another seems tricky, wouldn't it make sense to merge activity 3 and activity 4?

- "Activity10": please clarify what is understood under "meta-standard".
