Canada (SCC) Redekop, Quinn Mr	Comment to Q.1: There must be existing international banking or financial standards regarding the use of e-payment / debit cards for transportation systems. These standards and systems have been used in many major cities already. These systems seem well established around the world and another standard is not necessary.	2019-02-22

France (AFNOR) Cailleau, Etienne M.	Comment to Q.1: The French mirror committee is wondering if, as formulated, this NWIP belongs to SC 1. The proposed standard requires a very expertise which is currently not involved within SC 1. Even if, the proposed content might be relevant we are wondering if SC 1 is the appropriate TC to develop this document. If the proposal is approved, the proposer has to ensure to involve the appropriate expertise during the develop processes.	2019-02-21
